Hi Miki,

Larger Public Works issues such as slurry and repaving can take quite a bit of time. With Mark out as of the moment, our office is working to figure out the best way forward on these types of issues but I will make sure to keep this section in mind as we fill the large gap in Mark's absence.

Potholes on the other hand should be easier to deal with. Anytime you see a pothole, the best thing to do is place it through here <http://bss.lacity.org/request.htm>, the "MyLA311" app on a smart phone or [1.800.996.2489](tel:18009962489) . Even if I call it in for you, I start in this process. You will receive a service request number and they are generally filled within a week. If you place it in, get a request number and get no action please let me know so I can speak with the crews. That is an easy ask.

Hope this helps.

Kind regards,

Logo5-web.

| Dearest Fred,

There is always an issue for people who do their job well, people just keep throwing stuff at you (see Mark Grant for details). So, two ongoing issues are tough for us:

1. Sepulveda Blvd. at Sepulveda Eastway (and surrounding area). I'm sure you've noticed the HORRIBLE potholes and rough road there. It seems to be in a "no-mans land) for street services. When they redid Sepulveda it looks like they stopped at the infamous crosswalk and should have gone a bit further south.
2. For some reason we reslurried (at the very least) the one-block span behind Kohls from Kohls to CVS, but nothing behind our building and our at the intersection of Westchester Parkway and Sepulveda Westway.

I know street services like these are tough to get, but if we could work on these, we would be eternally grateful.

Thank you.

Miki
